

INTRODUCTION TO THE POKER ROOM

Poker is played against other competing Players—the casino is not an opponent. Poker is also an inherently social game, so whether you're a seasoned Player or just embarking on your first experience at the poker table, you'll feel welcome in the luxury and comfort of Resorts World Catskills' Poker Room.

Poker Game Selection

Texas Hold 'em

This is the most widely played poker game. This is a form of poker where each Player is dealt two cards to begin. After the first round of betting, three cards are turned up in the center of the table for all to share followed by another round of betting. Then the fourth Community Card is exposed. Another round of betting takes place. The fifth card is exposed and a final round of betting takes place. The best five cards play.

Omaha

This is a version of Hold 'em in which each Player receives four down cards. Five Community Cards are shared and each Player must play exactly two cards from their hand and three from the board.

Limit Games

The Buy-In for all Limit Games, also known as Structured Games, is five (5) times the maximum bet unless otherwise posted on the plaque on the poker table. Of course, Players may Buy-In for any amount over the posted minimum.

Example: The minimum Buy-In for \$3–6 limit is \$30. The minimum Buy-In for \$10–20 limit is \$100.

Seven Card Stud

A total of seven cards are dealt to a Player, two down and one up at the beginning, with the low card by suit (Clubs, Diamonds, Hearts, and Spades ranked from the lowest to the highest) initiating the action. On subsequent rounds, the High Hand on board initiates the betting action. The last card is dealt face down. The best five cards play.
