

# INTRODUCTION TO BIG SIX

**The player** will place their bet in one of the boxes on the layout matching a symbol on the wheel. The wheel contains 52 spaces that are marked with five (5) different symbols plus one (1) labeled "Resorts World" and one (1) RWC Logo for a total of 54 spaces. The breakdown of the wheel is:

NUMBER OF SPACES	PAYOFF RATE	SYMBOL
23	1 to 1	\$1
15	2 to 1	\$2
8	5 to 1	\$5
4	10 to 1	\$10
2	20 to 1	\$20
1	45 to 1	"Resorts World" Spelled Out
1	45 to 1	Resorts World Catskills "Globe" Logo

The Player can place a bet until the Dealer calls "no more bets." At that time the Dealer spins the wheel. The wheel must complete at least three (3) rotations for the spin to be valid. If there is a malfunction and the clapper does not stop inside one of the spaces, the spin is void and the Dealer must spin again.

If a Player has bet on the symbol on which the wheel stops, they win. All other bets lose.
