Poker Tournament Notification to the NYSGC

R.W.C will submit a written Promotional Submission Form of tournament details to the NYSGC for approval. The tournament will not be conducted until approved by the New York State Commercial Gaming Division.

Poker Tournament Rules

All tournaments will be conducted in accordance with the Poker Tournament Rules.

Buy-In Registration

Tournament will be open to the public with proper notification. Each tournament player in a buy-in tournament must buy-in at the Poker Cage located in the Poker Room and pay the:

Buy-in - The required amount paid by a patron that goes directly into the prize pool.

Administrative Fee - The required amount paid by a patron which R.W.C. would consider as revenue.

Optional Dealer Appreciation – An optional fee for the players, where the players contribute a small fee in a poker tournament for the poker dealers in exchange for extra starting chips. Amounts collected from the Dealer Fee are directly reported as tips/gratuities earnings for Poker Dealers.

Total Amount Collected - Commonly referred to as the collective total of all entry fees.

The total amount collected for all daily tournaments will be on a cash only basis at the Poker Cage. All buy-ins will be returned as prize money (the prize pool) after the completion of the final table.

The Total amount collected is conducted at the Poker Cage and will process all cash payments related to tournament transactions (i.e. buy-ins, entry fees, Dealer Fee, payout of winnings).

Computerized Registration

R.W.C. will use the Bravo poker software (a standalone computer system) to generate player receipts, random seat assignments, and tournament payouts. Each tournament will be listed in the system, with the buy-in, administrative fee, dealer fee, and the date of the tournament. All tournament players are required to have a Players card and identification in order to register for a tournament. The Players card center employee, or Poker Supervisor or above will create cards using their computer programs to screen for potential Exclusion and Self Exclusion patrons. To register a player, the tournament Cashier will swipe the player's card into the Bravo system, select the tournament the player wishes to enter and will print a Tournament Buy-In Receipt. If the Bravo database does not recognize the customer, the tournament Cashier will enter the player's card number and name. This will cause the database to recognize the player the next time the card is swiped. The tournament Cashier will print a 3-part computer generated Tournament Buy-In Receipt, which will also contain the players seat assignment. The tournament Cashier will retain the original copy of the Tournament Buy-In Receipt and the player will receive the duplicate copies. Each player will present a copy of their Tournament Buy-In Receipt to the Dealer at their assigned table to be seated. The Dealer will subsequently check the receipt collected for proper seating assignments and give the copy of the Tournament Buy-In Receipt collected to a tournament staff member at the completion of the registration period.

Acknowledgment

Full Tournament Rules will be made available to patrons in the Poker room upon request.

Tournament Buy-In Receipt

Each tournament player who pays the necessary total amount collected will receive two copies of the three-part Tournament Buy-In Receipt. The Tournament Buy-In Receipt will be printed at the time of buy-in at the Poker Cage and will contain information on the tournament player including his/her name, Players card number and moneys received (i.e., total amount collected includes Buy-in, administrative fee, and optional Dealer Fee) from the player.

The duplicate copies of the Tournament Buy-In Receipt will be given to the tournament player who will be required to present their receipt to the Poker Supervisor or poker Dealer on the day of the tournament. In the event the patron loses their Tournament Buy-In Receipt, the tournament player will be asked for proper identification, which will be matched against the original copy of the Tournament Buy-In Receipt maintained by the Poker Cage or Main Cage. The original Tournament Player Receipt along with the Tournament Summary Form will be

maintained in the designated tournament window for reconciliation purposes and subsequent forwarding to Casino accounting upon completion of the tournament. The duplicate copies of the Tournament Buy-In Receipt are presented by the patron to the Dealer at their assigned table. The patron is then subsequently given the tournament chips by the Dealer. The duplicate copies of the Tournament Summary Form and the Prize Distribution Schedule will be maintained by the Poker Manager.

Manual Registration

Manual registration is to be used only as a backup whenever the computerized registration is not operational.

Tournament Player Receipt (Manual)

Each tournament player who pays the necessary buy-ins receives the duplicate and triplicate copies of a three-part manual Tournament Player Receipt. The manual Tournament Player Receipt will be prepared by the Poker Cashier at the time of buy-in and will contain information on the tournament player including his/her name, Player's card number and moneys received (i.e. Buy-in, Administrative fee, Dealer Fee, Total) from the player. The tournament player will be asked to sign their name on the line indicated signature. The date and cashier's signature and license number or tournament cashier's signature and license number will also be recorded on the manual Tournament Player Receipt upon acceptance of the money from the player.

The duplicate copies of the manual Tournament Player Receipt will be given to the tournament player who will be required to present their receipt to the tournament Cashier on the day of the tournament; they will then make a random draw from the Seat Cards for their table and seat assignment.

The duplicate copy of the manual Tournament Player Receipt is presented by the patron to the Dealer at their assigned table and are subsequently given by the Dealer to the tournament staff member to be sent to the Poker Manager's office along with the duplicate copy of the Tournament Summary Form, which will be maintained by the Poker Manager.

In the event the patron loses their manual Tournament Player Receipt, the tournament player will be asked for proper identification, which will be matched against the original copy of the manual Tournament Player Receipt maintained by the Poker Cage.

The manual Tournament Player Receipts along with the original Tournament Summary Form will be maintained in the designated tournament window for reconciliation purposes and subsequently forwarded to Casino Accounting.

Random Seating

Option 1 (Secondary Method)(manual mode): The tournament player will make a random draw from Seat Cards placed in a bucket for their table and seat assignment. This random seating

method will only be used in the event that the Bravo Tournament Watch computer mode experiences a technical malfunction.

Option 2 (Primary Method)(computer mode): Seats will be assigned to all participants by random selection by a computer-generated program, which is based on a random number generator. The seat assignment will appear on the Tournament Player Receipt.

Close of Buy-In Registration

Tournament registration for each day will close after twelve blind rounds and through the scheduled break after the start of the tournament for late registration or if at capacity for one blind round of alternates. When the supervisor announces the beginning of the 13th blind level, registration will be closed.

The Poker Cashier window(s) accepting the tournament buy-in, administrative fee, and the dealer fee will record the total number and amount of the buy-ins, administrative fees, taxes owed to state and dealer fee on the Tournament Summary Form and sign the Tournament Summary Form on the Cashier line. The tournament staff member will compare the duplicate copies of the Tournament Player Receipts with the totals recorded on the Tournament Summary Form. After cross checking the Receipts with the form, the tournament staff member will sign the bottom of the duplicate Tournament Summary Form on the Poker Supervisor line attesting to same.

The tournament staff member will use the information from the Tournament Summary Form to calculate the prize money distribution for the final tournament in accordance with the Prize Distribution Schedule for the type of game being played. After the tournament staff member has completed and signed the Prize Distribution Schedule, the tournament staff member will forward the Prize Distribution Schedule to the Poker Cashier to verify and attest to the accuracy of the calculations. The Poker Cashier will sign and date the bottom of the Prize Distribution Schedule. A tournament staff member will enter the prize amounts onto the Winners Ticket when payouts have been reached for payment of the prizes at the Poker Cage.

Tables

All poker tables in use for tournament play will have the table inventory float covers locked. Prior to locking the covers, a complete inventory will be conducted and an inventory slip will be completed. Once tournament play is completed on a particular poker table, the float may be unlocked for non-tournament play.

Tournament Chips

Prior to conducting poker tournaments, a par level distribution of tournament chips will be supplied to the poker room from the Poker Storage Closet. These tournament chips will be held in the poker room as the poker tournament chip inventory. The initial inventory along with additions and subtractions to the inventory will be recorded on the Tournament Chip Reconciliation Sheet. The Tournament Chip Reconciliation Sheet will be maintained by the Poker Room. An inventory of the tournament chips will be conducted prior to and after each individual

tournament. The Tournament Chip Reconciliation Sheet will be stored in the tournament pit stand and readily available for inspection.

All chips used for tournament play will be non-value tournament chips approved for use by the NYSGC. Prior to the start of tournament play, the Dealer assigned to each tournament table will distribute to each registered player a fixed amount of non-value tournament chips.

The total number of chips distributed will be recorded by the tournament staff member in the Issued Column of a Poker Tournament Chip Log. The log will contain the table number, date, denomination breakdown, total number of chips issued by denomination and the signature of the tournament staff member. The Poker Tournament Chip log will be completed at each table. After distribution to all tournament players, any excess tournament chips, along with the Poker Tournament Chip Log will be locked in the poker pit stand prior to the commencement of play. At the completion of each color-up round the tournament staff member will note the number of chips issued in the issued column and the number of chips returned in the returned/reconciled column. Any variances in tournament chips will be immediately reported to New York Gaming on site compliance and the surveillance. Surveillance will conduct an investigation into the variance and report the results to New York Gaming onsite compliance and the Poker Manager.

Players must return all tournament chips when they are eliminated or at the conclusion of their tournament play.

At the conclusion of the tournament, all tournament chips will be reconciled by the tournament staff member and entered onto the returned column of the Poker Tournament Chip Log. The Poker Tournament Chip Log will be maintained by the Poker Manager.

Procedures for Payment of Winnings (Computer)

The tournament staff member will enter the "Place Finish" position and corresponding "total dollar amount" for that position in the Bravo Tournament Watch program. As the eliminations progress and the identity and "Place Finish" position of the winners become known, the tournament staff member will enter the winner's position in the Bravo Tournament Watch Program. Section II – Poker Rules

30. Tournament Directors are to consider the best interest of the game and fairness as the top priority in the decision-making process. Unusual circumstances can, on occasion, dictate that the technical interpretation of the rules be ignored in the interest of fairness. The Tournament Director's decision is final. The Tournament Director is defined as the Poker Room Manager, or in the absence of the Poker Manager, the Poker Room Pit Manager on duty who holds a casino key license.
31. Chip race rule: When it is time to color-up chips, a race-off will determine who receives the odd chips. The remaining chips from each player will be placed together, colored-up, and any remaining chips will be either colored up if 50% or more of the value of the colored up chip, or will be forfeited if below 50% of the value of the colored up chip. The colored-up chips left will be raced-off by each player receiving one card face up for each

of their chips that were not originally colored-up and pooled together (i.e. He/She has 3 chips not colored up, he/she would receive 3 cards). The highest cards by suit will receive one of the colored-up chips from the pool. The player with the second highest card will receive one of the colored-up chips from the pool. This will take place until all colored-up chips have been raced-off. A maximum of one chip will go to any player. The chip race will always start in the No.1 seat. ***A player cannot be raced out of a tournament. In the event that a player has only one chip left, the regular race procedure will take place. If that player loses the race, [s]he will be given one chip of the smallest denomination still in play***

32. Odd chips (i.e. if the smallest chips in play are \$5 and the pot is \$85 and cannot be divided evenly an “Odd Chip” situation would occur): The odd chip(s) will go to the high hand.

33. Side pots: If two or more people win the hand where someone was all-in and there are side pots, each side pot will be split as a separate pot. They will not be mixed together before they are split.

34. Calling for the clock procedures: Once a reasonable amount of time has passed the Poker Supervisor makes the decision it is time to force the player to act, and a clock is called for, a player will be given one (1) minute to make a decision. If action has not been taken by the time the minute is over, there will be a ten (10) second countdown. If a player has not acted on his hand by the time the countdown is over, the hand will be dead.

35. Dead Button: Tournament play will use a dead button.

36. Penalties: A penalty will be invoked if a player exposes any card with action pending, if a card(s) goes off the table, if soft-play occurs, or similar incidents take place. The penalty will be in 4 steps. 10 min for the 1st violation, 20 min for a subsequent violation, 30 min for a 3rd violation, and the 4th step is disqualification.
37. Penalties will be invoked in cases of abuse, disruptive behavior, or similar incidents which are considered severe by the Tournament Director. These instances will be penalized by a 1 blind round penalty for the first instance and disqualification for subsequent violation.
38. ***A player must be at the table by the time all players have received the appropriate amount of cards from the dealer in order to have his or her hand live. Players must be at the table to call time.*** In stud-type games, the forced low hand will be immediately dead if the player is not there to act on his or her hand at the time [s]he is required to put money in the pot (the minimum bring-in will be posted and the hand will be killed).
39. All cards will be turned face up once a player is all in and all action is complete.
40. If a player puts in chips that is less than 100% of the previous bet, those chips will be committed to the pot. A player may fold and commit those chips and call the remaining amount of the bet. An exception would be if the player stated raise prior to committing the chips whereas a full raise would be required. Any dealer error will be subject to the interpretation of the floor supervisor.
41. In no-limit, an oversized chip before the flop is a call; after the flop, an oversized chip **by the initial bettor** put in the pot will constitute the size of the bet. ***In pot-limit and no-***

limit, if a player states raise and throws in an oversized chip, the raise will be the maximum amount allowable up to the size of that chip.

48. When time has elapsed in a round and a new blind level or bet structure (as submitted in the notifications) is announced, the new limits apply to the next hand.

All tournament tables will use an automatic shuffler. When using an automatic shuffler, the beginning of the hand starts with the pressing of the green button to change the decks. In the event one or more shufflers are not available for all tournament tables for more than 5 hands, RWC will switch to a manual shuffle mode for all tournament tables. In the manual shuffle mode, a hand has begun with the first riffle.
49. Players must keep their highest denomination chips visible at all times.
50. Verbal declarations as to the content of a player's hand are not binding; however at R.W.C. discretion, any player deliberately miscalling his hand will be warned followed by the 4 step penalty described above in rule 36.

51. When everyone folds to a bettor, making them the winner, and the remaining cards are no longer necessary, a player may not ask the dealer to finish the deal in order to see what would have happened. This is known as rabbit hunting. Rabbit hunting will not be permitted.
52. A player who intentionally dodges his or her blind(s) when moving from a broken table **will** forfeit the blind(s) and/or incur a penalty. The money will be put into the next pot and **will** be considered dead money.
53. All chips must be visibly displayed at all times. Players may not have tournament chips in their pockets at any time. A player who has chips in his or her pocket will forfeit the chips. The forfeited chips will be taken out of play from the tournament.
54. Moving players: In flop games, players will be moved from the big blind to the worst position.
55. If a R.W.C. dealer kills an unprotected hand, the player will have no redress and will not be entitled to his or her money back. An exception would be if a player raised and his or her raise had not been called yet, [s]he would be entitled to receive his or her raise back.
56. R.W.C. dealers cannot kill a winning hand that was turned face up and was obviously the winning hand.
57. Player's verbal declarations in turn are binding. Action out of turn will also be binding.
58. Seat tiles will be used to break tables. The seat tiles for available seats will be randomly shuffled by the Tournament Director and passed out according to the high card. High Card will be used to see who receives the first tile and then the remaining tiles will be

distributed clockwise around the table. Players going from a broken table to fill in seats assume the rights and responsibilities of the *position*. They can get the big blind, the small blind, or the button. The only place they cannot get a hand is between the small blind and the button. ***A player moved to balance tables will take the worst position. A dead button situation may occur.***

59. Penalties available for use by the R.W.C. Tournament Director are verbal warnings – 10, 20, and 30 minutes away from the table – and may be used with discretion. These may be utilized by R.W.C. up to and including disqualification. A player who is disqualified shall have his or her chips removed from play.

60. Players are obligated to protect the other players in the tournament at all times.

Discussing cards discarded or hand possibilities is not allowed.

61. A player who exposes his or her cards during the play will incur a penalty, but will not have his or her hand killed.

62. In no Limit or Pot Limit, when raising, a player must either put the amount of the raise out in one motion or state the raise amount. ***By stating the word raise, a player protects his or her right to raise, but the raise must be made in one additional motion unless [s]he states the amount.***

63. Verbally disclosing the contents of your hand or advising a player how to play a hand will result in the 4 step penalty process as described above in rule 36.

64. In no-limit, less than a full raise does not reopen the betting to a player who already has acted.

65. Tables will be broken in an order/manner and available to all players upon request, however; due to certain circumstances, R.W.C. reserves the right to alter that order.

Section III – Additional Rules

66. One table will be used to set the button position on all games in a tournament. The dealer on the designated game will deal one card face-up to each stack on the game starting from seat 1 around. The High Card (suits used to break a tie in alpha order Clubs, Diamonds, Hearts, Spades in ascending order. ACE of Spades is the Highest Card) wins the button position and all other tables will set their button to that position to start the tournament.

67. “Seat Tiles” will be collected as players are eliminated from the tournament. These tiles will be used when it comes time to break a table. High Card (as above) will determine who on the game receives the first “Seat Tile” and then the remaining tiles will be distributed clockwise around the table.

68. Alternate List Option: If all available seats in a tournament are filled, an alternate list may be established. Each time a player is eliminated an alternate will be seated.

Alternate tournament players will start with the original starting chip stack.

69. In the event a tournament is cancelled due to an emergency at R.W.C., players who were already eliminated from the event will lose their buy-in and fees. The remaining players in the event will be paid the prize money based on their chip stacks and standings in the tournament at the time the tournament stops running.

72. All players will begin with the same chip amount.

73. Limits, blinds and antes are raised at regularly scheduled intervals. In the event the tournament clock is not functional, The Tournament Director will maintain a manual clock and announce the new blind levels according to the Promotional Submission Form.

Tournament chips will be of the following denominations.

\$25.00 \$100.00 \$500.00 \$1,000.00 \$5,000.00 \$25,000.00
